

ARM-R™

Body Armor Replacement Program Save \$25 per Armor Vest

UST's Body Armor Replacement Program was developed to ensure that our fighting forces have the most reliable protection available and to encourage replacement of old armor still in the field. Industry standards recommend a 5 year service life for Level IIIA body armor.

Program Details:

- \$25 discount per Body Armor Vest on GSA Contract GS-07F-0566T
- One for one, no limit
- Must be purchased by Sept 30, 2009

EXTENDED
through 2010!

How to Receive Discount:

- Record Serial Numbers or Date Range on Ballistic Panel Insert Cover
- Contact UST Government Sales at: govsales@ultimatesurvival.com
206-965-9660 or 866-479-7994 x 115

NOTE: Offer is good for any armor that needs replacement, not exclusive to Survival Inc./UST armor.

NOTE: PANEL SETS (only) cannot be exchanged. UST no longer makes panel sets that fit inside older armor covers. This is due to new requirements from the NIJ under the '05 Interim standard. UST's new armor (in four sizes) no longer has separate "wings" for the side panels. The new design provides for overlapping protection at the sides.

Ace Advantage™ with *HaloTech FR*

- NIJ '05 Interim Certification
- Integrates with Aircrew and Other Mission-Critical Systems
- Accessory/Plate Options
- Infrared and FR Material
- Four Sizes
